

## **KAESTLE BOOS ASSOCIATES AWARDED CUMBERLAND, RI, SCHOOL PROJECT**

**Foxboro, Massachusetts, March 6, 2006** – Kaestle Boos Associates has been selected to design Phase III of Cumberland High School's 2010 Plan in Cumberland, Rhode Island. Kaestle Boos is one of New England's most experienced architectural firms specializing in the construction of educational facilities. The total project cost has been budgeted at approximately \$30 million.

"We are very pleased to be chosen for this project for Cumberland High School," says Michael McKeon, Vice President of Kaestle Boos Associates. "Phase III of the CHS 2010 plan calls for the construction of a new science wing with modern classrooms and laboratories, a remodeled and upgraded cafeteria, additional music rooms and new art studios, as well as technology and code upgrades to the school. Kaestle Boos is very excited to be working with the town on this very important project for the students of Cumberland."

Kaestle Boos Associates will be working with the Construction Management firm of DiMeo Construction Company, which was selected by the Town. Work will begin this month, with renovations to the cafeteria and upgrades to the fire system taking place this summer while students are on vacation. Total construction is projected to be completed by the summer of 2008.

Kaestle Boos Associates, Inc., is a full service design firm with offices in Foxborough, MA, New Britain, CT and Portsmouth, NH. The firm specializes in educational facility planning, public safety facilities and other municipal architecture. Founded in 1963, the firm's goal is to create structures that are functional, aesthetically pleasing, environmentally sound, and economically justifiable.
