

KAESTLE BOOS ASSOCIATES CHOSEN FOR SOUTH KINGSTOWN AUDITORIUM PROJECT

Foxborough, Massachusetts, November 30, 2006 – Kaestle Boos

Associates, one of New England's oldest and most experienced architectural firms, has been chosen by the South Kingstown School Committee to lead a renovation project for the town's high school auditorium.

"Our team will be renovating the auditorium space including updating the sound and lighting systems, improving the acoustics and installing new air conditioning and ventilation equipment, ," says Michael McKeon, Vice President of Kaestle Boos Associates. "We'll also hopefully be replacing the carpet, the stage floor, and adding space if the budget allows."

Kaestle Boos Associates has designed a number of renovation projects and new theater and performance venues over the last few years, making them one of the leaders in New England for this type of work. Just last year the firm completed the historic renovation of the 3,000 seat Palace Theater in downtown Waterbury, Connecticut that is now supporting off-Broadway productions and has been integrated into a public performing arts magnet school.

Kaestle Boos Associates, Inc., is a full service design firm with offices in New Britain, Connecticut, Foxborough, Massachusetts and Portsmouth, New Hampshire. The firm specializes in educational, public safety, theater arts, parks and recreation and other public projects. Founded in 1963, the firm's ultimate goal is to create municipal architecture that is functional, aesthetically pleasing, environmentally sound, and economically justifiable.
